

**Products, Solutions & Safety**

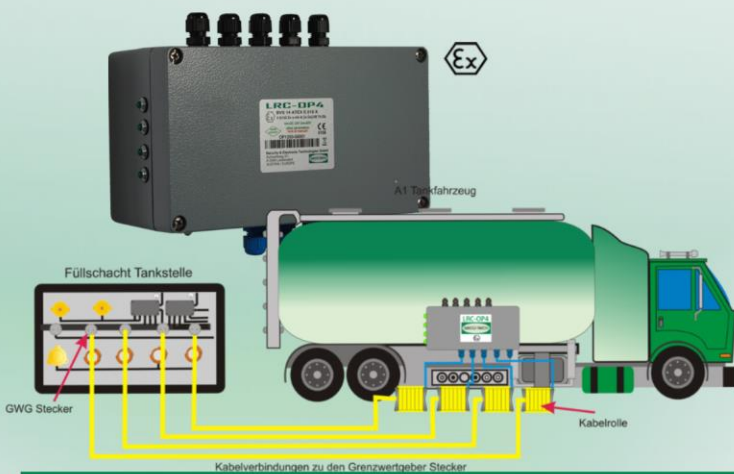

## SECU MultiTank

Comprehensive solution for safe and efficient fuel distribution

## LRC OP4

Cable Overfill Prevention for fuel tanker-trucks  
Cable Overfill Prevention for 1-2-3-4 connections

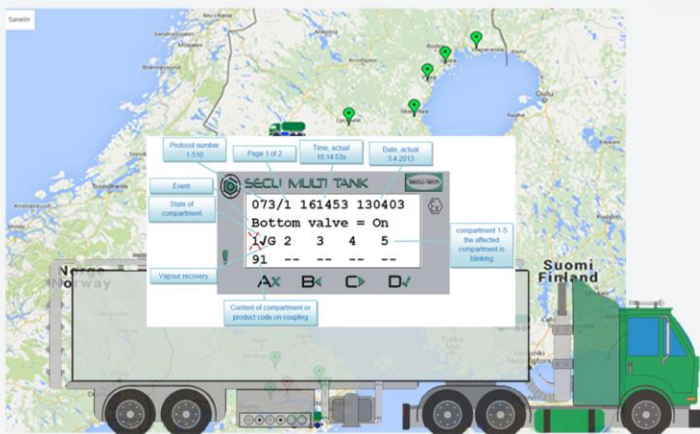

## SECU TruckControl

Theft Control System (SPD)

## MAPPING & TRACKING

Temper-proof Tanker-Trucks  
Overview with location in real-time

## DEADMAN CONTROL

For safe and efficient loading and unloading of tanker trucks.

EX- and Non-EX Deadman systems

## LRC Small

Overfill prevention for tanker truck vehicles for safe liquid deliveries

## LRC 3

Combined radio- and cable- Overfill Prevention for tanker-trucks in Non-EX areas

## LRC 4

Combined radio- and cable- Overfill Prevention for tanker trucks in EX Areas.

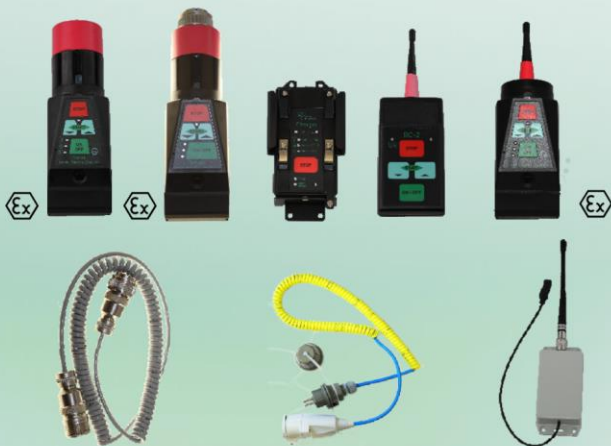

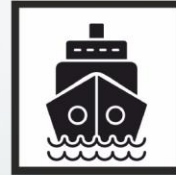

## LRC ADN

Safety device for the loading and unloading processes of tanker ships

## LRC Ship Bunkering

Overfill Prevention for Bunker Stations and Bunker Ships

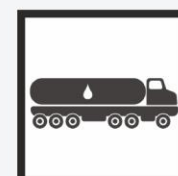

## SECU IntelliTank

Highly accurate level measurement for tanker trucks and stationary applications

## SECU Trans

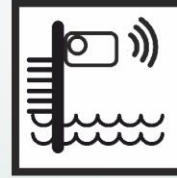

Electronic counter for highly accurate volume recording of tanker trucks

## Level Gauges

Ultrasonic Level Gauges

## SECU Data SECU Data LEVEL

Wireless Data Transfer

## Tank Monitoring

Analysis and Overview of all connected tanks
